- Time Management
- Leadership

## EXPERIENCE

### Software Developer | SourceStrike - Los Angeles, California

2022

- Addressed API issues on internal web app. Worked with TypeScript, React.JS, React Hooks/SWR, and Next.JS.
- Upgraded global CRM web app. Used JS, Ractive.JS, and bootstrap. Improved the capability and reachability of all customer campaigns by 50%.
- Integrated web app with dynamic profile display utilizing JS and Ractive templating. Improved styling profile messages and icons. Debugged HTTP request headers using Postman to get the correct API end-points for DynamoDB database. Improved the experience of thousands of customers' inboxes and DMs.
- Leveraged async and AXIOS with DynamoDB.
- Implemented source control best practices using git/github and SourceTree.

### Clinical Data Manager | Procter & Gamble - Mason, Ohio

2020 - 2022

- Improved data loading time from instrument data by 40% refactoring existing VB code.
- Deployed databases to clinical sites using Citrix and Remote Desktop Protocols (RDPs).
- Performed Quality Checks (QC) using table queries and SQL.
- Designed and built eCRF study databases and performed acceptance testing.

### Portfolio Manager | Alliance Data - Cincinnati, Ohio

2017- 2019

- Decreased the number of defaults by 65% within the first 2 months of start date by using company data analytics to find and reduce the number of accounts defaulting due to hardship.
- Saved the company \$40,000 a month by reducing defaults for assigned portfolios.
- Implemented new workflow strategies based on key business production metrics.

## EDUCATION

### Tech Elevator | Cincinnati, OH

- .NET (C#) Professional Technical Certificate

### Rogue Community College | Grants Pass, OR

- Coursework toward a degree in Computer Science
